Secretariat review & publication of the Statement has now been transferred to the Director of Statistics. From the Rev Com's reference it appears that the Dy Comrs have now been directed to send the district returns to the Director. It is doubtful if that officer will undertake the work of compiling the consolidated Statement for the whole State, which was being done by the Rev Com. till now. Since the Rev com. naturally wants to be kept informed of the of the Dist conditions in the Several Dists, it will be the most convenient arrangement for him to get the Dist returns as hitherto and to continue to forward to the Director the Consolidated Statement with his review. The Director may also be requested to address copies of his review and Statement to the Rev Comr. & to the Secy to Govt in

3 I interpret the G.O of 17.5.18 to mean nothing more or less than that the new Statistical Branch presided over by the Director will do all the duties in respect of the returns referred to in the Appendix, which were hitherto being performed by Br I of the S.R.S. The Order effects no change so far as returns which the R.C was hitherto getting.

4 Therefore the R.C as R.C was getting the Returns Nos 13 & 14 he will continue to get them even now. But if he was getting these as Ex officio Director of Statistics, in view of para 8 of the G.O of 17.5.18 some arrangements will have

Note.

The disposal of the reference from the Revenue Commissioner will be much simplified if Government frankly recognise that the Government Order dated 17th May 1918, has left many points unsettled or vague and that its revision is urgently called for.

2. To illustrate what I mean, I have only to mention the references to which the order has already given rise and which have been settled by Government. First came the letter from the Revenue Commissioner to me, asking me to take charge of the Directorship of Statistics from him. I have sent to Government copies of both the letter and my reply to the Revenue Commissioner. The fact that I have not received instructions from Government, contrary to the reply made by me to the Revenue Commissioner, leads me to think that the Revenue Commissioner's view was incorrect.

Next there was the reference to Government from the Revenue Commissioner (and also one from me) about the responsibility for the compilation of the Season and Crop Report. That was also disposed of by Government recently. These two examples will, I hope, induce Government to take a generous view of the existing position.

3. When recently the Revenue Commissioner sent me a Consolidated Statement of Cattle Mortality for the ~~most recent~~ quarter, I returned it saying that the review by the Revenue Commissioner was not discontinued by the Government Proceedings dated 17th May 1918, and that the Consolidated Statement might be sent back to me with the review.

This seems to be the proper view to take as the Revenue Commissioner's position in regard to cattle mortality should not be impaired in any way both in normal and abnormal seasons, and as it will be sufficient for the Director of Statistics and Government to see that the Revenue Commissioner is watching the situation carefully and takes steps for bringing about a steady reduction in cattle mortality. Had the Government Proceedings dated 17th May 1918 been literally carried out, the Deputy Commissioners might have sent the returns direct to me; but this has not been done, perhaps because para 3 of the Government Proceedings dated 17th May 1918 refers to " statistical returns received in the Secretariat."

The Revenue Commissioner however sent me a Consolidated Statement without the review.

So far then as the present reference goes, the proper remedy seems to lie in the amendment of items 13 and 14 in the list appended to the Govern-

ment
